ABOUT THE STATE

Happenings of Interest From Different Sections.

Lake Bomoseen is not yet clear of ice, according to Rutland county owners who have been there within a few days.

C. H. Grinn of Rutland has purchased the building known as Tim & Co.'s plant. It is probable that the Grabber calculating machines will be made on the second floor of the building.

George Wood, nine years old, a Belows Falls boy, while fishing in the meadows where considerable water had backed up from the Connecticut river, speared a pike two feet long.

Sam Schenck of Wilmington met with an accident while coupling cars recently for the Power Construction company there, that resulted in the amputation of his foot at the instep.

Wesley Jilison's house in Whitingham was burned during the night of April 12. One cow and the pigs were rescued, but all the hens burned. Part of the household furnishings were saved. The cause of the fire is unknown.

Sometime Sunday evening burglars relieved the store of John Roberts at West Pawlet and a barber shop in the same building of considerable cash, cigars, tobacco, candy and barber's utensils. A part of the money was discovered in a house in West Pawlet, occupied by several Poles, but the culprits were not found.

While George Daney was boiling a concoction on the stove at his home in Brattleboro, from which he intended to make gum, the kettle boiled over and caught fire. Mr. Daney started for the door with it, but his hands became so badly burned that he dropped it, setting the door casing, piazza and side of the house on fire. The fire department was called, but neighbors had nearly extinguished it before they arrived.

Ferdinand H. Pease, son of Mr. and Mrs. F. S. Pease of Burlington, is among the counsel for the White Star line in the inquiry into the Titanic disaster now being held in Washington. The New York law firm of Burlington, Montgomery & Beecher of New York, with which Mr. Pease is connected, are retained as counsel by the White Star line. Mr. Burlington and Mr. Pease went to Washington with J. Bruce Ismay to be present at the hearing.

A. H. Stewart, rural mail carrier on Wallingford route No. 1, has just completed nine years of service. During that time he has traveled 71,903 miles, has the longest trip, and has been in the service longer than any other carrier in Rutland county. Mr. Stewart is 55 years of age, and was substitute carrier for three years before being appointed to a regular route. He was president of the Rutland County Rural Letter Carriers' association for four years, retiring from that office in February of this year. He has been a delegate to the national convention, and has been four times to the state convention.

While the teacher of the teacher training class of Middlebury high school was absent from the room a few minutes recently, a freshman at Middlebury college, and another who was a former student at the college, dropped in and proceeded to introduce some novel ideas in teaching, denouncing the present methods, and causing such a disturbance that the absent teacher heard and hastened back to her post just as the young men were leaving. They considered the affair a good joke, but not so Principal Harriman and others interested in the school, so the young men were arrested and fined the ex-student paying \$15.14, including costs, as he seemed to be the ringleader, while the freshman paid \$7.14.

F. W. Crady of Burlington and his granddaughter, Irene Jackson, of Ferrisburgh, narrowly escaped death a few days ago when walking across a railroad bridge at the latter place. They did not notice an approaching train and were caught in the middle of the bridge.

By direction of those interested, I am to sell the following valuable real estate at an early date. Do you want some of it? If so, send me a sealed bid to be kept unopened until May 1, 1912, at my office, and mark it "Bid on Campfield Property."

First parcel—The large four-tenement house at No. 47 Spaulding street; large lot, enough so that a separate lot 45 x 80 feet could be sold off and then leave the house all right. Rents for \$4 per month. New tin roof of best tin. Parity lease land.

Second parcel—A large lot on Perry street, 70 feet by 110 feet on short side; the other side is longer. Lease land. Lies just right to save grading. This is in the best part of the city for a good residence.

Lots Nos. 7 and 8, Gilley plot, 50 x 110 feet, on Camp street. Sewer and city water near these. Nice residences beyond.

No objection to your raising first bid, but let me have your best offer before May 1.

A NOTED DOCTOR SAYS

Everyone should use some little antiseptic powder in the shoes. Coupling the feet in shoes is in itself unnatural and causes a moist or smarting condition. People of refinement now use Allen's Foot-Powder, the antiseptic powder to be shaken into the shoes, and would as soon go without a dentifrice as without the use of Allen's Foot-Powder.

Both lay down beside the rails to save themselves, but the train was stopped in time to save them.

Greed for Graft.

C. S. Raymond of the Chicago Tribune is writing a series of political short stories in The American Magazine, in which he is revealing some of the com- edies and tragedies of life in a state legislature. In the current number of The American, his story has to do with the adventures of a newly-elected country member named Polley. Following is a short extract:

"He was timid and embarrassed when the older members took notice of him, but the possibility that he might win their friendship and respect was alluring. He had received from an indulgent state an allowance of \$50 for stationery. He also had been given a box containing a whiskbroom, a package of pencils, a box of pens, two erasers, three pads of yellow paper and four pads of white paper."

"He was prepared to believe any extravagance possible. He might dictate his letters to a stenographer if he could persuade one that his affairs were im- portant enough to interfere with his duties. The privileges of statesmanship seemed Babylonish."

Polley was so glib that he believed a story that raincoats were given freely to members. The story, as told to Polley by practical jokers in the legislature, was that if he would climb the dusty stairs to the dome of the capitol he would find his raincoat waiting for him. He made the trip and when he returned was loudly jeered. He laughs best who laughs last, however, for Polley got even with his persecutors in a manner which Mr. Raymond entertainingly describes.
